

GRATITUDE

There have been several individuals, public and private agencies, and businesses who have helped the ECC develop a community recycling program.

“THANK YOU” TO:

the Sixth Grade Teachers, Students, and Parents for your hard work and support!

Joseph Ellis and Adrienne Luetjens at Estancia Valley Solid Waste Authority! You provided direction, information, and an aluminum can collection site for the school at the Estancia Facility on Joseph! This gives the whole community the opportunity to support energy education by simply dropping their aluminum cans off in the designated area.

Estancia School Board! You have given your full support to the ECC in their efforts to reduce the negative impacts on our environment that come

clung is one of the practical ways to conserve energy in our homes, businesses, and schools.

District and County Agencies! Your white paper donations will help us achieve our ton-a-month goal!

Elementary, Maintenance, & Cafeteria Staff, and Central Office Staff! You have been very supportive in the ECC's recycling program. You have also agreed to conserve energy in the classrooms and at home.

Torrance County Fair Board! Allowing the ECC to set up their aluminum recycling containers during Old Timer's Day and County Fair will give the community the opportunity to support energy conservation.

Estancia Board of Trustees! By collecting your white paper, aluminum, and ink cartridges in all of the Town Offices and businesses, you are showing your support for education and energy conservation.

It Starts with You!
